About EDAC Technologies Corporation

EDAC Technologies Corporation is a diversified manufacturing company serving the aerospace and industrial markets. In the aerospace sector, EDAC offers design and manufacturing services for commercial and military aircraft, in such areas as jet engine parts, special tooling, equipment, gauges and components used in the manufacture, assembly and inspection of jet engines. Industrial applications include high-precision fixtures, gauges, dies and molds, as well as the design, manufacture and repair of precision spindles, which are an integral part of machine tools found in virtually every manufacturing environment. EDAC's core competencies include extensive in-house design and engineering capabilities, and facilities equipped with the latest enabling machine tools and manufacturing technologies.
